A BREEZE OF HOME

SPRING/SUMMER 2021 COLLECTION

SINCE OUR CREATION IN 2011, ZUIVER'S PHILOSOPHY HAS ALWAYS BEEN: TOMORROW'S DESIGN FOR TODAY'S INTERIOR. WE DELIVER AN INTERIOR COLLECTION OF FRESH, FASHIONABLE AND CONTEMPORARY FURNITURE, LIGHTING AND ACCESSORIES DESIGNED IN THE NETHERLANDS. THE ZUIVER COLLECTION IS SOLD IN MORE THAN 80 COUNTRIES ACROSS 3 DIFFERENT CONTINENTS.

The Spring/Summer 2021 collection of Zuiver honours the beauty of everyday. A celebration of simplicity. The sun creating shadows on your wall, the scent of your garden, the soft touch of your favourite lounge chair… These everyday moments, which we have grown so used to, unconsciously make us feel at ease and defines your personal space. Your home, is much more than a collection of beautiful objects, it's the place where life unfolds, a collection of moments. In this Zuiver SS21 collection, sandy and natural tones and organic silhouettes meet sculptural patterns and lines. Pure and honest materials as walnut, glass and ceramics are combined with innovative and smart materials as water-resistant fabric and a coffee residue bio-plastic – an answer to cut back our virgin plastic use as part of our sustainable mission. Zuiver invites you to take a step back and enjoy the little things indoors and outdoors. A breeze of home with our forever designs.

"My favourite moments at home are defined by simple every day routines and moments. Hearing my son playing the piano, a warm summer evening on my terrace, the sound of birds chirping in the distance or the smell of homemade cappuccino. These moments define my feeling of being home. This concept is what I translated in the new SS21 collection; a collection of forever designs giving you your own breeze of home. I can't create these special moments for you, but hopefully our new designs can add just a little"

STEPS TOWARDS SUSTAINABILITY

ALTERNATIVE MATERIALS

As a front-runner in the furniture design field, Zuiver feels it's our responsibility to minimize our environmental footprint by exploring alternative materials and production methods. Within the Zuiver collection we launched our very first sustainable design back in 2019: the Thirsty chair. The shell of this chair is made out of 60-100 upcycled PET bottles, at the start of 2021 we've used more than 100.000 of PET bottles. This season we come with a new sustainable design. We used coffee residue for the shell of of our iconic and bestseller Albert Kuip chair; containing 42.5% coffee waste. More responsible Zuiver designs to follow soon this year.

HQ AND MORE

We have taken more significant steps towards sustainability: our global HQ is generating 30% of its own energy through solar panels, and within 5 years we aim for this to be 100%; we encourage all our manufactures to use recyclable packaging materials and to reduce the use of virgin plastics and Styrofoam.

ALBERT KUIP

COFFEE CHAIR

ALBERT KUIP COFFEE CHAIR NEW

Design: APE

The world drinks a lot of coffee. Over 2.25 billion cups are consumed daily worldwide and this produces an enormous amount of waste. This coffee residue is used for the shell of our iconic Albert Kuip chair, containing 42.5% coffee waste. But there is more. In our Albert Kuip chair series, we use natural oak wood legs, but when there is a discolouration or knot, we unfortunately have to reject and destroy that copy. But we found a solution: we now simply paint these misfits black and use them for this chair. So there you have it: our most sustainable chair so far.

THIRSTY CHAIR

Design: APE

The shell of this pretty chair is made out of upcycled PET bottles that are saved from landfills in China. China is struggling with a huge amount of single-use plastic waste. Every chair contains up to 60 to 100 PET bottles. This design chair, frame included, is 100% recyclable and renewable. Now there you have a great bottle story!
The Thirsty chair is the first action in Zuiver's sustainability mission; an initiative to minimize our environmental and social footprint by exploring alternative materials and production methods.

CREATIVE DIRECTOR'S CHOICE

LEKIMA

LOUNGE CHAIR

LEKIMA LOUNGE CHAIR

Design: Simone Smelt

Memphis-inspired lounge chair Lekima was developed in collaboration with Simone Smelt, a design talent we were happy to invite for our scholarship programme. This pretty lounge chair was named after typhoon Lekima which struck a day after Simone arrived in China for the making of this seater. We admit that this name is a great contrast to the soft lines and friendly vibe this design lounge chair gives off. Lekima brings joy and creativity to every room, so we dare you to colour your home with this stunner.

HARMONY

CARPET

HARMONY CARPET NEW

Optical illusion is what best summarizes our high-quality carpet Harmony. It's manufactured in Europe. The hexagon shape, lines and colour blocks create a 3D illusion. We used the main colours of our 2021 collection – brown rice, desert sage, mustard and a warm terra – to create a harmonious geometrical pattern that grabs your attention. It is designed in such a way that you can give your room a different look every season. Just turn it around and the optical effect is suddenly completely different.

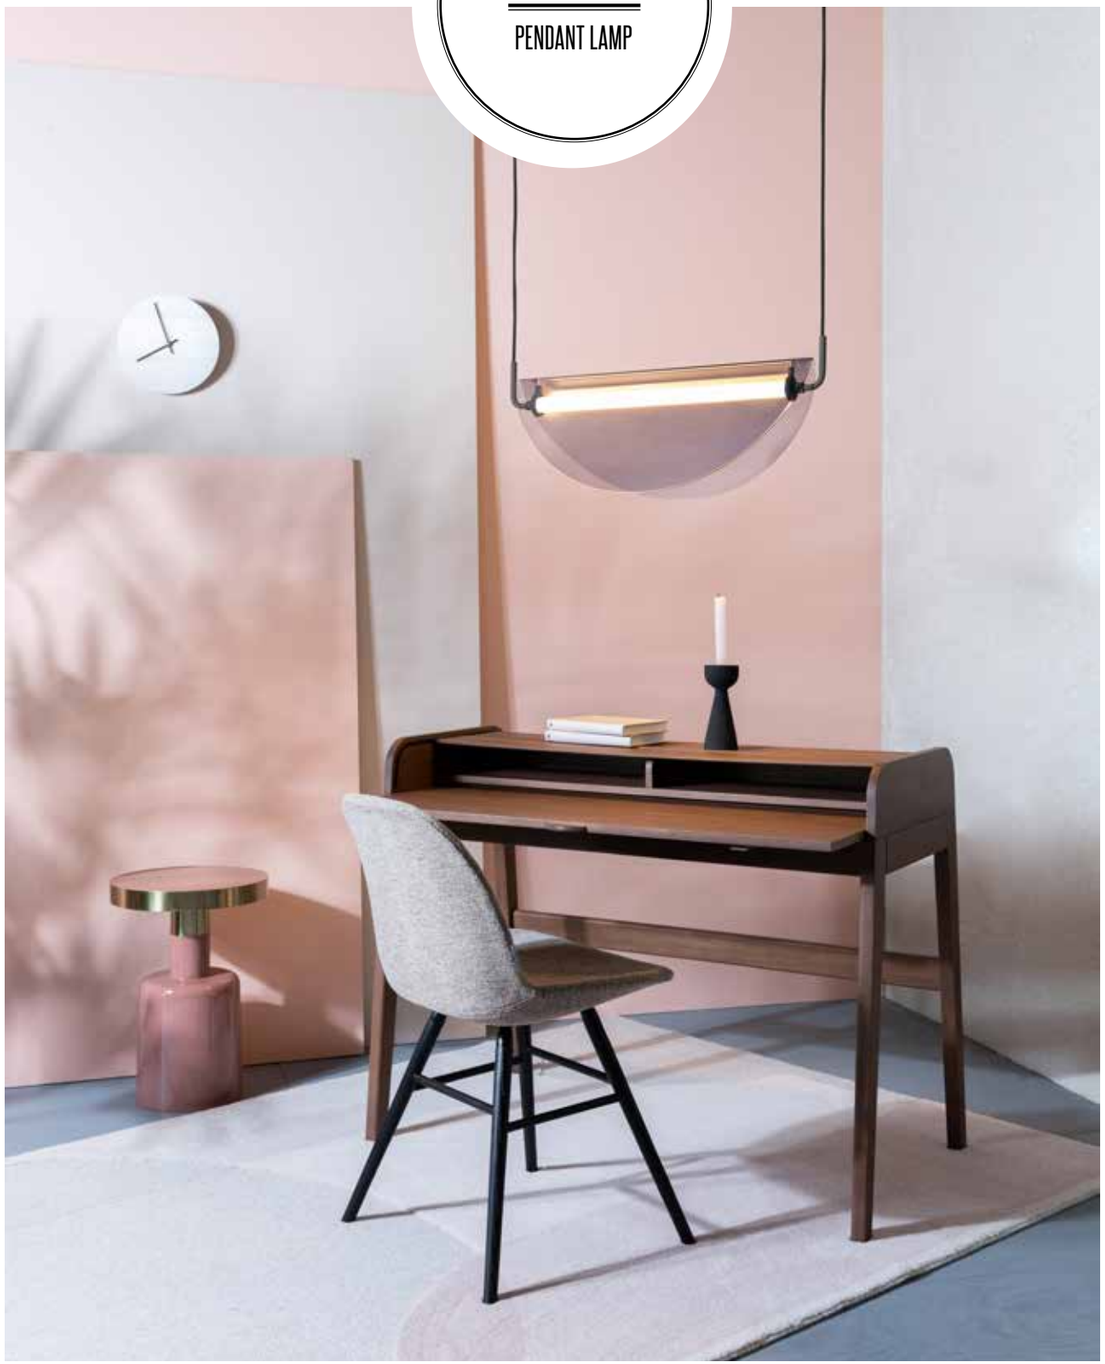
RANI

PENDANT LAMP



RANI PENDANT LAMP

Design: Jasmijn Muskens

Are you picking up on that pleasant 80s vibe from pendant lamp Rani? We love it! This beauty was created in collaboration with young designer Jasmijn Muskens, whom we invited for our scholarship programme. Jasmijn likes to draw inspiration from the Memphis style, which also emerges in Rani. Rani comes in a pink version which hides the light source when not in use, and in a tinted glass version which gives the light source an aesthetic function. We love them both equally and leave the choice up to you. Good luck with that!

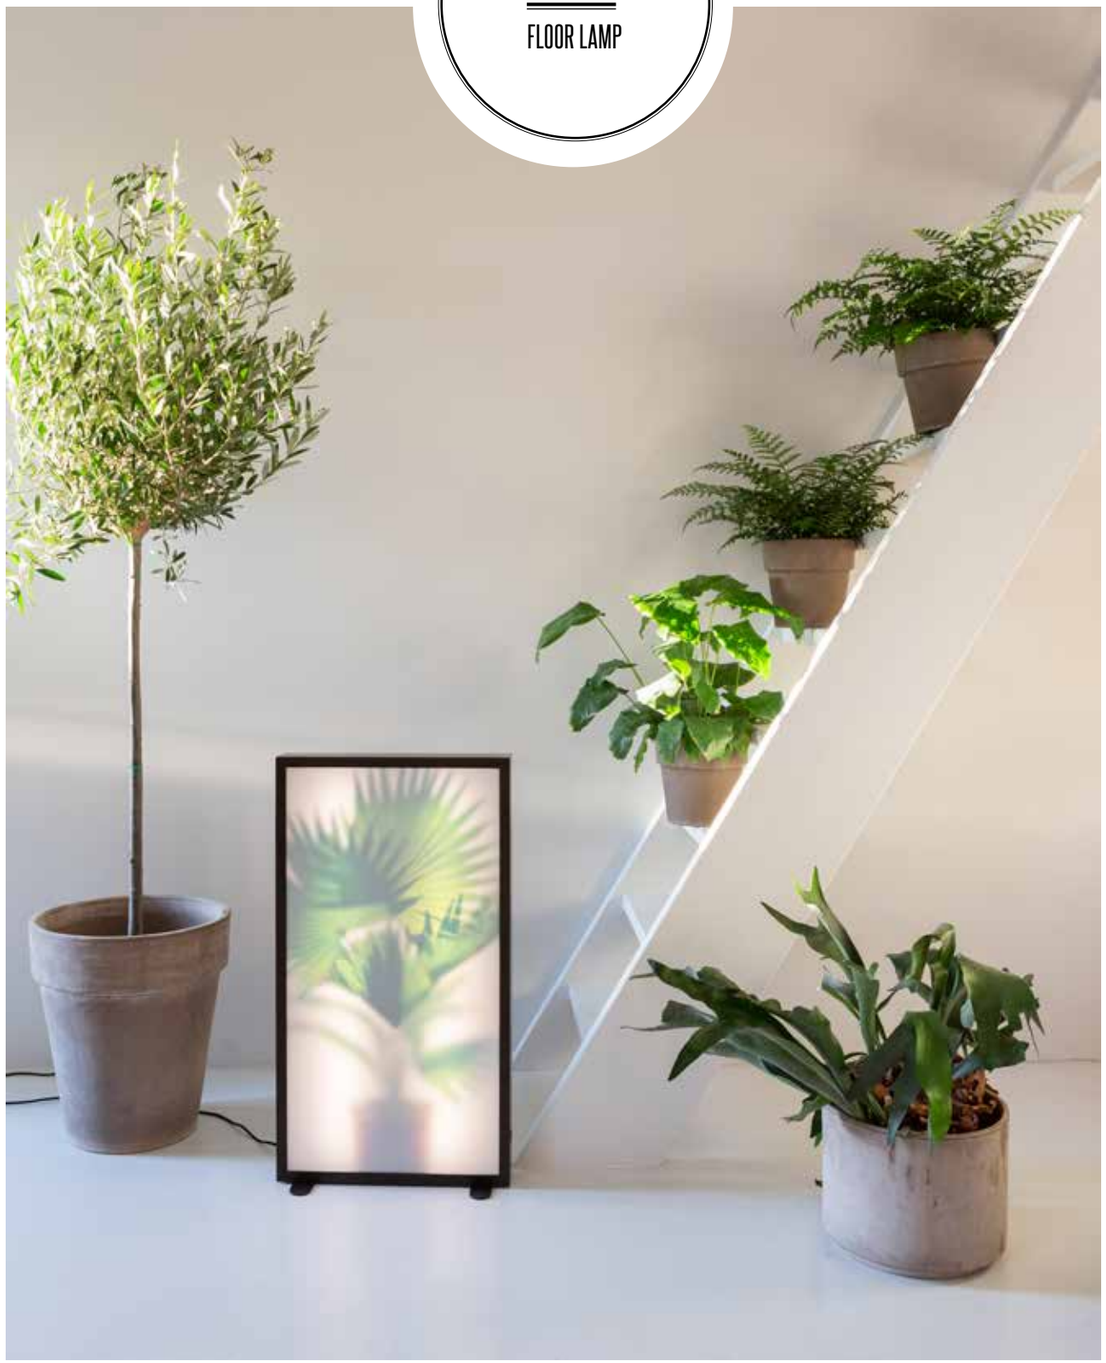
GROW

FLOOR LAMP



GROW FLOOR LAMP

We brought the houseplant to a next level; meet our Zuiver Grow lamp-series. For this framed beauty we worked together with Rotterdam-based design studio REM atelier. Together we created four different sized, dimmable lamps with each presenting their own exotic houseplant: Zebra Plant (M), Fiddle Leaf Fig (L), Fan Palm (XL), and Elephant Ear Plant (XXL). A three-dimensional, layered picture of the plant is placed into a light box, creating a hyper realistic illusion of a living plant. REM Atelier started observing the way people decorated their living spaces with plants. The plants are often placed in window frames and clinging to the windows, as plants tend to do when they grow towards the light. So who's up for some illusion with this exotic houseplant that doesn't need any water nor can't die? Show us your hands!

BASSIN VASE NEW

Design: Studio Suolle

This pretty tactile ceramic newcomer is our Bassin vase. A design made by Dutch design Studio Suolle. This vase is inspired by Dutch water towers. These towers were widely built in the Netherlands since the mid-nineteenth century to store water. Today only 175 of these water towers remain. Most have been declared national monuments.
The vase comes only in blossom white so that it blends in with every interior, and more important, doesn't steal the thunder away from your flowers. If you remove the top part you can also display large bouquets of your favourite flowers. The vase comes in two sizes.

CREATIVE DIRECTOR'S CHOICE

BREEZE

OUTDOOR SOFA

BREEZE OUTDOOR SOFA NEW

The Breeze sofa is modular so you can build your ultimate outdoor sofa to fit your outdoor space. The backwards sloping cushions help to drain water into a small, clever gutter hidden away in the back frame. The high-tech material is water repellent and fast drying, so you don't have to stall the sofa indoors during winter or store the cushions inside every night. The sofa is made in Europe and comes in grey and anthracite.

Waterproof, antibacterial outdoor sofa with fixed cover
Mixed fabric upholstery (92% olefin, 8% polythyleen)
38.000 Martindale, colour fastness 7-8
Polyether foam, density 25
